May 9th, 2020 - in the novel dead
poets society professor keating
once stated that perception is
everything and that to change

your perception of the world is to see everyday objects in a new light overview is once such exercise in this art of perception taking its name from what is known as the overview effect where we are awed by the beauty of earth's natural and man made features from above'

'overview a new perspective of earth book review

April 24th, 2020 - benjamin grant has created a unique series of images in overview a new perspective of earth which illustrates that there needs to be a dramatic shift in the way our species views our planet

he has done so by creating
over 200 extremely detailed
overviews in which each image
is posed of numerous satellite
photographs that have been
stitched together"talks at
