June 6th, 2020 - about
engineering mechanics
the goal of this
engineering mechanics
course is to expose
students to problems
in mechanics as
applied to plausibly
real world scenarios
problems of particular
types are explored in
detail in the hopes
that students will
gain an inductive

understanding of the
underlying principles
at work students
should then be able to
recognize problems of
this sort in real
world situations and
respond accordingly'
