'the future of capitalism facing the new

May 27th, 2020 - the future of capitalism is a passionate and polemical treatise that presents brilliantly original solutions for healing this economic social and cultural discord with the cool head of pragmatism and policy rather than the fervor of rhetoric paul collier s workable solution is in the center we have no time for moral or intellectual superiority on either side of the political spectrum he argues and no shiny new economic theory is going to save us this time'
