BIM Handbook dl acm org
June 24th, 2018 -
Building Information
Modeling BIM is a new
approach to design
construction and facility
management in which a
digital representation of
the building process is
used to facilitate the
exchange and
interoperability of
information in digital
format BIM is beginning
to change the way
buildings look the way
they function and the
ways in which they are
designed and built BIM

Building Information
Modeling BIM offers a
novel approach to design
construction and facility
management in which a
digital representation of
the building process is
used to facilitate the
exchange and
interoperability of
information in digital
format BIM is beginning
to change the way'*
